SOFT TISSUE SURGERY

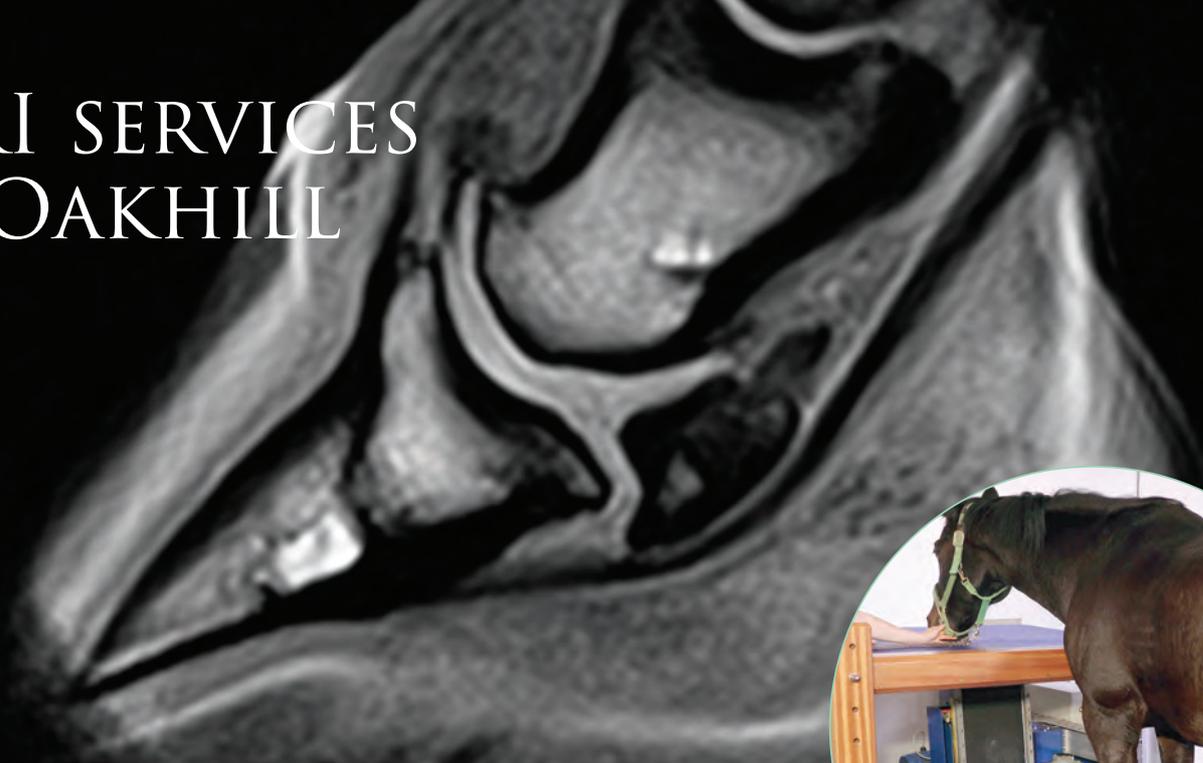

MINIMALLY INVASIVE TRANSBUCCAL EXTRACTION

REGENERATIVE MEDICINE

DORSAL SPINOUS PROCESS RESECTION

MRI SERVICES AT OAKHILL

...L SERVICE TO VETERINARY SURGEONS.

HAVE YOU LOCALISED A LAMENESS TO A SPECIFIC AREA,
BUT ARE STILL UNSURE OF A DEFINITIVE DIAGNOSIS?

Our new Hallmarq standing MRI magnet is available to image the distal limb from the hoof capsule to the level of the carpus or tarsus.

DO YOU OFTEN HAVE DIFFICULTY IN PERFORMING AN ACCURATE ULTRASOUND
EXAMINATION OF THE COB FETLOCKS WITH THICK SKIN?

You are not alone, however, MRI is essential in obtaining an accurate diagnosis in these difficult cases.

We will provide you and your clients with the very highest standard of MRI service:

- RAPID RESPONSE TIME FOR APPOINTMENTS
- DETAILED REPORT INCLUDING IMAGES WITHIN 2 WORKING DAYS
- COMPETITIVE PRICING
- ALL SUPPORTED BY EXPERT INTERPRETATION BY EUROPEAN LAMENESS AND IMAGING SPECIALISTS

We will conduct an MRI examination only at your request. If you would like us to perform any further investigation prior to MRI, or treatment following the diagnosis then we are happy to help.

OUR REFERRAL SERVICES ARE AN EXTENSION TO THE SERVICES OF
YOUR OWN PRACTICE.

OUR TEAM - YOUR GUARANTEE

Rosie or Guy will communicate with you, the referring Veterinary Surgeon, prior to admission and at regular intervals thereafter. No routine work will be conducted by Oakhill Equine Vets during the period of admission. Following discharge from the clinic, complete management and treatment of the case will be returned to the referring practice.

ROSIE OWEN

BVSc CertES(Orth) DipECVS MRCVS

Rosie graduated from the University of Liverpool in 2006. Her first role as a Veterinary Surgeon was as an intern in Equine Orthopaedics at The Animal Health Trust, Newmarket. Following this, she worked in equine practice for 2 years before completing a 3-year residency in Equine Orthopaedics and Surgery at the University of Liverpool. Rosie joined the Oakhill Equine team in 2012 and gained her ECVS diploma in Large Animal Surgery in 2014. Rosie has a special interest in advanced lameness diagnosis, imaging and Equine Surgery.

GUY HINNIGAN

BVSc CertES(Orth) DipECVS MRCVS

Guy graduated from Liverpool University in 2005 then worked in private practice in Cheshire for 3 years, prior to undertaking a surgical residency at Leahurst. During this time he attained his RCVS Surgery Certificate and conducted a research project into hindlimb proximal suspensory desmitis. Guy subsequently worked in practice in Yorkshire for 4 years and attained his ECVS Surgical Diploma in February 2015. Guy joined Oakhill in April 2015 to further enhance the surgical expertise within the practice.

DR. MEREDITH SMITH

MA Vet MB PhD Cert ES DipECVS
AECVDI MRCVS

CONSULTANT

After completing her veterinary degree at Cambridge University in 1999, Merry went on to do an internship in America and an equine surgical residency at Leahurst. Whilst working as an Equine Surgeon she gained her ECVS diploma in Equine Surgery. Later, based at Newmarket Equine Hospital, she implemented the standing low field MRI. Merry was made a large animal associate of ECVDI in 2011. She now works as a freelance diagnostic imaging and surgery Consultant, collaborating closely with leading private practices, including Oakhill.

Although Rosie and Guy will take ownership for ALL referred cases, we also have other members of the Oakhill Equine Veterinary Team, who have particular areas of interest:

LEONA SHANAHAN

MVB MRCVS CertAVP
Internal Medicine

SAMANTHA BAKER

BVSc, MRCVS
Advanced Dentistry

SUZANNE GREEN

BVM+S BSc (Hons) MRCVS
Internal Medicine

“Our new developments and investment here at Oakhill enable us to meet demands for a first class referral service in our region. We encourage all referring vets to come and take a look around our facilities and have a chat with Rosie or Guy. If you have any questions regarding the services available to you, just give us a call on 01772 861300.”
