

Johne's Deadline

The deadline for completion of phase 2 of the National Johne's Management Plan will soon be here - 31st October 2018.

Any clients that have been asked by their dairy to comply will need to confirm that:

- both their herd status and risks have been assessed
- necessary management information, equipment, husbandry and resources to implement the agreed control strategy have been put in place.

Please let us know as soon as possible if this applies to you, so that we can carry out a Specific Johne's risk assessment for your herd and formulate an up to date Johne's Action Plan. **On completion the NJMP declaration will need to be signed by the farmer and vet.**
